Professional Experience

ISIE, Tunis — Data Entry Clerk

September 2023 – December 2023

At ISIE (Instance Supérieure Indépendante pour les Élections), I was tasked with fieldwork including the updating of elector's locations.

This involved accurately mapping and associating said electors with their nearest school. My responsibilities included on-site data collection and verification to ensure precise and up-to-date information, contributing to the effective organization and management of electoral processes.

Skills: data collection · Teamwork · Communication

OTC, Charguia — PFE *intern*

January 2023 – June 2023

During my internship, I created an interactive dashboard for digitizing a historic map of mineralogical deposits in Tunisia. The dashboard enables easy navigation, panning, and zooming, with a robust querying system for customized data visualization.

Notably, it incorporates statistical charts for meaningful insights, simplifying complex geological information and aiding decision-making processes.

This [project](#) bridges technology and geology, offering a valuable tool for researchers and professionals.

Skills: Web Mapping (HTML-CSS-JS, framework LeafletJS, Back-end APIs ExpressJS) ·

Intelligence SARL, Lac2 — *Enumerator*

August 2021 – Present

I assisted in conducting market search for various known Tunisian companies throughout surveys with a team of 5-10 person in different regions,

My current role consists of assuring quality control of various well-knowns chain stores services providers in Tunisia as well.

Skills: Marketing · Market Research · Communication

CERTIFICATES

Javascript Algorithms and Data Structure
